

Cheri Holman, LEED AP-

Cheri Holman is the Executive Director of the USGBC West Michigan Chapter and Chairperson of 1st statewide biggest loser styled energy competition coined USGBC Michigan Battle of the Buildings.

Cheri is a LEED Accredited Professional with extensive experience and a genuine passion for energy & water conservation. Other areas of expertise include sustainable purchasing, indoor air quality and recycling.

For 13 years, Cheri worked for Hurst Mechanical in Greater Grand Rapids developing and leading a robust energy department aimed at helping Michigan corporations & non-profits reduce energy consumption within their facilities through the implementation of energy conservation technologies and improved operational practices. It was during this work she saw the need to developed the battle of the buildings competition.

Mrs. Holman is Past Chair of USGBC West Michigan Board of Directors after serving as Treasurer for 2 years. In early 2008 Cheri founded the LEED for Existing Building Advocacy Group. She served as a subject matter expert for the Green Building Certification Institute (GBCI) LEED for EB Operations and Maintenance test development in 2008 and the Commercial Reviewer exam test development in 2009. In 2010 & 2011 Cheri served as a Greenbuild conference session reviewer. Mrs. Holman is a partner in Holman Heating & Cooling, a residential HVAC company based in Greenville, MI. Her passion is centered on sustainability and she focuses on helping companies increase their Triple Bottom Line (TBL).
